

Our Services

Support for drug development

We perform clients' development of drugs with them together, by supporting for the clients' lack of human resources in the non-clinical field.

Services to meet regulatory requirements

[illegible]

We help clients prepare NDA documents, respond to inquiries on NDA from the government agencies, and help clients perform the necessary work to meet regulatory requirements.

Translation services

[illegible]

Staffs specialized in various fields help clients translate their documents between Japanese and English, so we can provide high quality documents to our clients all the time.
